KEY SKILLS

Business Intelligence

Power BI (Advanced), DAX, Data Visualization, Storytelling, SSIS, SSAS, SSRS, Knowage

Data Integration (ETL)

Talend (Expert), Power Automate, SQL Server, MySQL, PostgreSQL

Advanced Analytics

Python (Scikit-learn, Pandas), Machine Learning, Excel (Macros/Pivot)

Development

Laravel, Vue.js, PHP, Symfony, Git, Docker, CI/CD

EDUCATION

Master's Degree in Computer Engineering — BI

ESPRIT (Top Engineering School)
Sept. 2020 — Jul. 2025

LANGUAGES

English: Professional (Full proficiency)
French: Professional (Full proficiency)

PERSONAL INTERESTS

- Karate:** Black Belt, Professional Athlete (Discipline & Perseverance)
- Tech Innovation:** AI Automation

PROFILE

Results-oriented BI Developer with 1 year of hands-on experience in building end-to-end data solutions. Specialized in transforming complex datasets into actionable insights using Power BI and Talend. Proven track record in automating reporting processes to drive business performance and empower decision-making.

PROFESSIONAL EXPERIENCE

BI Developer — Final Year Project | *Ooredoo Tunisia*

Jan. 2025 — Present

- BI Architecture:** Designed and optimized dynamic Power BI dashboards for real-time business supervision.
- Automation:** Automated complex data collection and processing workflows using **Talend**, reducing manual reporting time by 60%.
- AI Integration:** Built a database-connected chatbot to facilitate instant data-driven queries for stakeholders.
- Tech:** Power BI, Talend, Laravel 11, Vue.js, MySQL, WebSocket.

Data Analytics Intern | *Startup*

Jun. 2024 — Jul. 2024

- Data Governance:** Extracted, cleaned, and transformed raw data from Zammad into a structured Data Warehouse.
- Reporting:** Developed specialized dashboards for different business roles (Managers, Validators) to monitor KPIs.
- Tech:** PostgreSQL, Talend, Knowage.

Data Analyst Intern | *Ooredoo Tunisia*

Jul. 2023 — Sep. 2024 (Combined)

- Business Insights:** Centralized disparate Excel files into a unified SQL database for commercial analysis.
- Dashboarding:** Built interactive Power BI reports to track service performance and monitoring metrics.
- Infrastructure:** Deployed ETL jobs on Linux servers, ensuring data accuracy and system reliability.

KEY PROJECTS

Predictive HR Analytics Platform

- Developed an HR dashboard with **Machine Learning** models in Python to predict employee trends.
- Integrated data from multiple sources via Talend into a centralized **Power BI** reporting suite.
- Tech:** Python, SQL Server, Talend, Power BI, Angular.
